

# KYRA® Spine: Radiolucent. Clean Straps. Stable Base.

The Kyra Curve spine frame provides maximum lordosis for Laminectomy, Decompression, Disc Surgery and Microdiscectomy procedures. The Kyra Curve has a class-leading weight capacity of 600 lbs/272 kg. The comfortable integrated gel pads allow for the most abdomen space to accommodate today's larger sized patient.

KYRA® CURVE FRAME  
Supports up to 600 lbs/272 kg

INTEGRATED GELS PADS  
ALLOW FOR MORE ABDOMEN SPACE
