KYRA MEDICAL

MADE IN THE USA

Bariatric Armboard

Lock in position. Release with confidence.

KYRA2060

Designed for secure support of larger patients, this bariatric armboard offers a wider platform with simple, reliable adjustment for efficient setup and everyday use.

- Wider version of our trigger-style armboard, ideal for bariatric patients.
- Integrated clamp snap locks onto rail at any position.
- Single-handed adjustment simplifies set-up.
- Eliminates pinch hazards and gear grinding.
- Durable, radiolucent construction.
- Includes 2" (5cm) thick pad for patient comfort and protection.

Pad included • Sold individually • US Rail only
Patient Weight Capacity: 800 lbs. (363 kg)
Dimensions: 26"L x 8"W (66 cm x 20 cm)
Armboard Weight: 6 lbs. (2.7 kg)

How it works:

Same construction and functionality as the KYRA Trigger Armboard (KYRA2000), shown below.
